Length- 686mm
Width - 514mm
Open: Height- 201mm
Length- 1352mm
Width - 514mm
Weight: 21kgs

The CF83 is a lightweight, transportable LPG cooker to cater for small groups, up to 15 people, depending on menu. It can also be used in support of the Hawkmoor CF84 trailer mounted kitchen or CF85 portable cooker as an additional cooking platform and can accommodate the Universal Oven or griddle plate.

BURNERS

The CF83 has two burners, each with a maximum output of 6Kw. The burners are independently controlled by a regulating valve.

FUEL

The CF83 is fuelled by LPG (Liquefied Petroleum Gas).

CONSTRUCTION

The main body is constructed from powder-coated carbon steel with the fold out table being constructed from stainless steel. The table folds down over the main body to protect the burners during transportation. Carrying handles are located on each end of the unit.

OPTIONAL EXTRAS

Universal Field Oven constructed of Stainless Steel with adjustable shelving and two GN 1/1 x 65mm roasting/baking pans. A warming facility is situated at the top of the oven.

Stainless Steel Stock Pot, 36 Litres with dispensing tap.

Large Griddle Plate 640 X 440 X 25mm

NOTE: Gas bottle and regulator are not supplied and must be sourced locally. A 19kg bottle should be used with a 37mbar pressure gas regulator.
